VAN NUYS BLVD • 91401

that torn-up median on van
nuys blvd...
is a train.

and it doesn't open until december
2031.

WHAT'S ACTUALLY COMING

eleven stations.

van nuys to pacoima.

the east valley light rail runs down the middle of van nuys blvd, from the G line to san fernando road. metro signed the \$2.43 billion contract in august... **so it's real. it's just five years out.**

01 · WHAT IT DOESN'T DO

it doesn't promise prices.

nobody can put a number on 2031 today. anyone telling you the station adds value is guessing... and you'd be paying for the guess.

02 • WHAT IT DOES

it changes the *timeline* question.

how long you stay matters more than what you pay.

7-YEAR BUYER

the blocks people skip for the traffic deserve a second look.

2-YEAR BUYER

you'd be buying five years of construction, not a train.

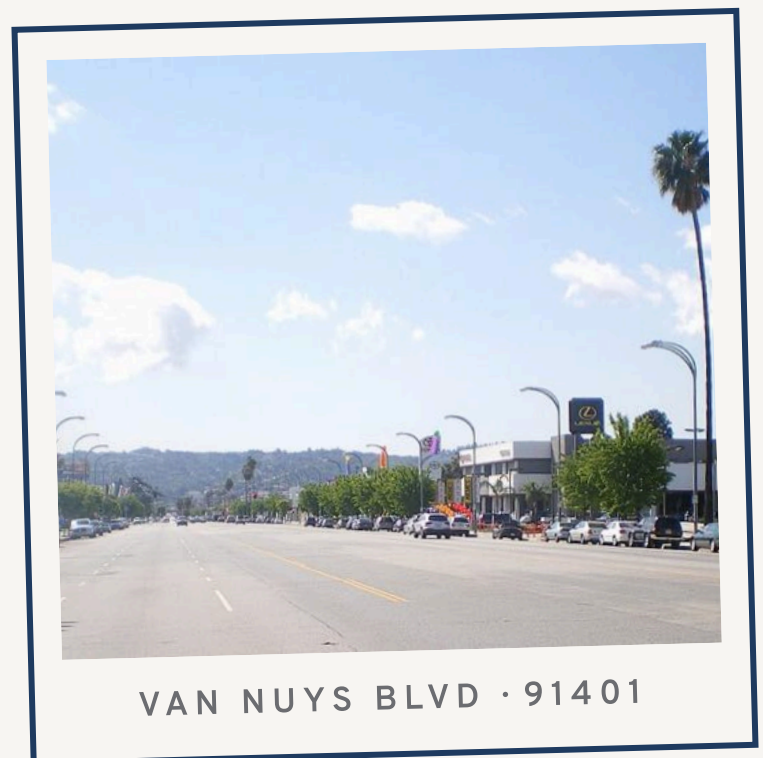

VAN NUYS • 91401

03 • THE CONSTRUCTION YEARS

lane closures and detours through 2031.

and the van nuys G line station
is closed for its own rebuild
until around the end of 2027.
plan around the detours, not
the ribbon-cutting.

tell me how long *you're staying.*

i'll tell you if the train changes
your math... and that's usually
the whole conversation. i'm
here for you... i do this to
protect you and your best
interest.
