

Structures × layouts: what is proven, what is open

A format is a storytelling structure (how the spoken words are organized) crossed with a visual layout (how it is shot). Solid cells are measured pairs with specimens; dashed cells are open — a bet, never evidence. Two cells (S3-L1, S4-L1) are proposals invented for this channel: nobody runs them, which is exactly why they are on the board.

TRY THESE 3 FIRST — TAP A CARD FOR ITS MECHANISM, OR TAP ANY MATRIX CELL

S1 × L1 · PROVEN PAIR Pick 1 · The Claim Ladder Compression promise on claim-science payloads. 60–90 min per rep: voice memo first (his words are the script), one session, two cuts.
S2 × L1 · PROVEN PAIR, HIS BEAT Pick 2 · The Regulatory News-Jack FTC/FDA warning letters + platform health-policy updates, 24–48h turnaround. Monday 20-min sweep; event number → what changed → for you → the move.
S3/S4 HYBRID × L1 · THE BET, LABELED Pick 3 · The Counter Consult Self-witness monologue with the printed claim ladder as prop. One counter story per video, ending on the buyer's protection. Fallback written: guest the story to roundtables.

READ THE NUMBERS AS POOL EVIDENCE, NOT CAUSAL PROOF: every in-cell multiple bundles channel effect, topic effect, and guest effect (Sabri's 14.1× rides a 504K channel; foundr's 15.9× rides a half-billion-dollar guest; the 64.2× ceiling is one channel's 19-year franchise). The mechanism card, not the multiple, is what transfers. Outlier = N× that channel's own normal views-per-day.

MEASURED PAIR

STRUCTURE, FOUR-PART NAMED

The Compression Promise: a time-boxed teaching promise with audacious specific numbers. 12-second example: “Give me four minutes and you'll know the six claims your supplement brand can legally make.”

READ

The pool's most reliable education vehicle. Confound: 504K channel effect.

MECHANISM (RETENTION)

Promise-debt + ranked-completion pull: the stated number makes the viewer hold you to it; numbered steps open loops the brain wants closed.

FAILURE MODE

Promise bigger than payload reads as betrayal; punishes thin substance hardest.

TRANSFER CONDITIONS

Survives because his payloads are enumerable (claims, proof tiers, rejection reasons). Breaks on vibes topics.

CONFOUND NOTE

Sabri's 14.1× bundles a 504K channel; read as pool evidence.
