Rock Bottom to Resurrection Business Model

1. CUSTOMER SEGMENTS

Primary: Men 28-45 in acute life crisis

- Just divorced/dumped (within 30-60 days)
- Lost job after years of stability
- Health scare or mortality wake-up call
- "Kitchen floor moment" - complete breakdown

Early Adopters: Men actively googling at 3 AM:

- "How to start over after divorce"
- "Why do I feel dead inside"
- "How to stop the pain"
- In therapy but need physical component

Characteristics:

- \$50K+ income (or had it pre-crisis)
 - Professional/knowledge workers

Existing Alternatives:

CANVAS STRESS TEST RESULTS

 **Deletion Test:** Every box essential - remove any and business fails

✅ **Coherence Test:** "Men in crisis have acute pain that therapy/gym can't solve, which we address through faith-based transformation, reaching them through crisis professionals, charging premium prices for emergency intervention, with margins that allow personalized support, tracking crisis capture rate, building unfair advantage through authentic vulnerability"

✅ **Specificity Test:**

- Can name specific clients (from testimonials)
- Problem described in their exact words
- Solution demonstrated in 5 minutes
- Unit economics calculated precisely

⚠️ **Competition Test:**

- Why doesn't this exist? Most coaches avoid crisis/faith
 - What changed? Mental health awareness post-COVID
 - Why can't they copy? Requires authentic breakdown story
 - Right to win? Only coach who's lived it
-

RECOMMENDED IMMEDIATE ACTIONS

Week 1:

1. Contact 5 therapists with partnership proposal
2. Refine \$47 protocol for maximum completion
3. Document your full breakdown-to-breakthrough story
4. Create crisis SEO content (3 articles)
5. Close first \$5K emergency client

Success Indicator: One \$5K client validates entire model. Everything else is scaling a proven system.

PIVOT SCENARIOS (If Needed)

If crisis clients won't pay \$5K:

- Test \$2,997 for 6 weeks
- Test group emergency format at \$997

- Focus on \$47 → \$297/month membership path

If professional referrals don't work:

- Double down on SEO/content
- Test paid search for crisis terms
- Build peer referral program

If faith angle limits market:

- Keep faith as personal story
 - Make it optional component
 - Position as "holistic" instead
-

THE BREAKTHROUGH INSIGHT

This canvas reveals the core truth: **You're not competing with gyms or fitness coaches. You're competing with suicide hotlines, numbing behaviors, and giving up.**

When positioned correctly, you're not expensive - you're the bargain alternative to staying stuck in hell.

The \$47 entry point qualifies commitment. The \$5K emergency intervention meets urgent need. The brotherhood prevents relapse. Each element reinforces the others.

This isn't a fitness business with some faith sprinkled in. It's an emergency crisis intervention service that uses physical transformation as the vehicle for complete life resurrection.
