

Offer Architecture & Pricing Strategy

The Value Ladder That Converts Regular Guys Into Committed Clients

THE PRICING PSYCHOLOGY

Core Truth: Regular guys don't buy fitness programs. They buy:

1. **Identity transformation** ("Become who you're meant to be")
2. **Kept promises** ("Prove you can change")
3. **Energy restoration** ("Feel alive again")
4. **Spiritual alignment** ("Honor God with your body")
5. **Masculine confidence** ("Respect the man in the mirror")

Price based on transformation value, not time spent.

PRICING PSYCHOLOGY MASTERCLASS

The Price Anchoring Strategy

Always present options from high to low:

1. "Executive Transformation at \$1,497/month"
2. "90-Day Program at \$497/month"
3. "Brotherhood at \$97/month"

This makes \$497 feel reasonable, not expensive.

The Comparison Reframe

Never compare to other coaches. Compare to:

- Cost of diabetes medication: \$500/month
- Marriage counseling: \$200/session
- Energy drinks: \$150/month
- Unused gym membership: \$100/month
- Streaming services they don't use: \$75/month

"You're already spending \$425/month to stay tired and disappointed"

The Investment Language

Never Say: "It costs..." or "The price is..." **Always Say:** "The investment is..." or "You'll invest..."

Never Say: "Can you afford it?" **Always Say:** "Are you ready to invest in yourself?"

The Urgency Creation

- "I only work with 10 men at a time"
 - "Founding member pricing ends Friday"
 - "Next group starts Monday"
 - "Two spots left this month"
-

PAYMENT PLAN PSYCHOLOGY

The Three-Option Rule

Always offer three payment options:

1. **Premium:** Pay in full (save 15%)
2. **Standard:** 3 payments (save 5%)
3. **Extended:** 6 payments (no discount)

Most choose middle option (psychology of compromise).

Payment Flexibility Scripts

For Hesitant Buyers: "I get it. Big decisions require thought. What if we split the first month into two payments?"

For Committed but Broke: "Your commitment matters more than payment terms. Let's create something that works."

For Quick Decisions: "Make a brave choice today and save \$200 with pay-in-full pricing."

OBJECTION-BASED PRICING STRATEGIES

"I Can't Afford It"

Response Framework:

1. Acknowledge: "I understand money is real..."
2. Reframe: "What's the cost of staying where you are?"
3. Solve: "Let's find an option that works..."
4. Challenge: "Is it really money, or is it fear?"

Payment Solutions:

- Start with Brotherhood at \$97
- Offer 2-week trial for \$97
- Create custom payment plan
- Trade services (testimonial, referrals)

"I Need to Think About It"

Response Framework:

1. Agree: "Big decisions deserve thought..."
2. Clarify: "What specifically do you need to consider?"
3. Timeline: "When will you know?"
4. Incentive: "Decide today and save \$100"

"It's Too Expensive"

Response Framework:

1. Curious: "Compared to what?"
 2. Value: "Let's talk about what you get..."
 3. Results: "What's the value of energy?"
 4. Alternative: "What would feel fair?"
