**The Ultimate Outcome:** Coach Cooz transforms from fitness coach to universe creator, from \$20K/month goal to \$200K/month reality, from helping dozens to impacting thousands, all through the power of interconnected content that builds its own gravity and pulls men from rock bottom to resurrection.

Every piece of content becomes a doorway into a universe where broken men find hope, methods, community, and transformation. The content doesn't just market the business - it IS the business.

This is how you build an empire from a kitchen floor.
