"The Rock Bottom Readiness Assessment"

SCORECARD OVERVIEW

Title: "Are You Ready to Rise? The 3-Minute Crisis Recovery Assessment"

Positioning Statement: "Most men don't know they're in crisis until it's too late. This assessment reveals where you really are - and whether you're ready for resurrection."

Core Psychology:

- Validates their pain (not minimizes it)
 - Quantifies crisis depth (makes it real)
 - Creates urgency (window is closing)
 - Offers hope (resurrection is possible)
 - Qualifies for intervention (not everyone is ready)
-

THE ASSESSMENT ARCHITECTURE

- 1-2 hours (1 point)

Psychology: Time commitment indicates seriousness

Q17: Do you have anyone supporting your recovery?

- No one - I'm alone (10 points)
- Distant support only (7 points)
- Some family/friends (4 points)
- Strong support system (2 points)

Psychology: Isolation indicates need for Brotherhood

SCORING FRAMEWORK & RESULTS

Total Possible: 170 points

130-170 Points: "EMERGENCY INTERVENTION NEEDED"

Your Result: Crisis Emergency

You're in acute crisis and need immediate intervention. This isn't about fitness - it's about survival. You're exactly where I was on November 12, 2023.

THE TRUTH:

- You're not broken, you're breaking through

- Traditional solutions won't work for you
- You need resurrection, not motivation
- Your window for change is NOW

THE COST OF WAITING:

Every day you delay costs more than money:

- Deeper spiral into numbness
- Greater damage to relationships
- Harder climb back to life
- Risk of giving up entirely

YOUR NEXT STEP:

Book an emergency intervention call within 24 hours.

This isn't sales - it's triage.

[BOOK EMERGENCY CALL - AVAILABLE TODAY]

"I only work with 4 men at a time because resurrection requires presence.

If you're ready to rise, one spot is yours."

90-129 Points: "APPROACHING ROCK BOTTOM"

Your Result: Critical Moment

You're standing at the edge. You can feel the breakdown coming.

This is actually the perfect moment - aware enough to act,
desperate enough to change.

YOUR SITUATION:

- Traditional approaches have failed you
- You're one crisis from complete breakdown
- The pain is becoming unbearable
- But you still have fight left

YOUR OPPORTUNITY:

You can choose your rock bottom or wait for it to choose you.

Men who act now recover faster and stronger.

RECOMMENDED PATH:

Start with the 7-Day Protocol (\$47) to prove you can change,
then move into full transformation.

[START 7-DAY PROTOCOL]

50-89 Points: "STRUGGLING BUT STABLE"

Your Result: Pre-Crisis Warning

You're not in emergency yet, but the signs are there.
You're managing, but barely. Without intervention,
crisis is 3-6 months away.

PREVENTION IS POWER:

- Address issues before they explode
- Build strength before you need it
- Create systems before chaos hits

RECOMMENDED:

Join the Brotherhood Waiting List - be ready when you need us.

[JOIN WAITING LIST]

Below 50 Points: "NOT READY"

Your Result: Not My Client

You're not broken enough for my methods. That's good news.
You don't need resurrection - you need regular fitness.

I only work with men in crisis. When you're on your
kitchen floor, I'll be here.

THE STRATEGIC ADVANTAGE

This scorecard does what no fitness assessment does:

- Qualifies crisis depth (not fitness level)
- Measures readiness for resurrection (not motivation)
- Identifies emergency need (not goals)
- Creates urgency (not interest)
- Pre-qualifies budget (not wishes)

It positions you as the diagnostic authority for male crisis recovery, making you the obvious choice for men who score high.

Every man who takes this assessment either:

1. Realizes he needs you urgently
2. Realizes he will need you soon
3. Realizes he's not your client

All three outcomes are perfect. You only want the first two.
