

Coach Cooz: Performance Metrics & Optimization Plan

Introduction

This document establishes a comprehensive framework for measuring, analyzing, and optimizing Coach Cooz's lean marketing strategy. With a limited daily budget of \$25-\$50 for LinkedIn advertising, maximizing return on investment is critical. This plan provides specific metrics to track, performance benchmarks, optimization protocols, and a structured approach to continuous improvement that will help Coach Cooz achieve his client acquisition goals while maintaining cost efficiency.

Key Performance Indicators (KPIs)

Primary Success Metrics

Metric	Definition	Target	Tracking Method
Cost Per Lead (CPL)	Total ad spend ÷ Number of leads generated	Initial: \$100-150 Optimized: \$75-100	LinkedIn Campaign Manager
Lead-to-Call Conversion Rate	% of leads who book discovery calls	Initial: 20-25% Optimized: 30-40%	CRM/Calendly tracking
Cost Per Discovery Call	Total ad spend ÷ Number of calls booked	Initial: \$400-600 Optimized: \$200-300	Calculated metric
Call-to-Client Conversion Rate	% of discovery calls that convert to clients	Initial: 20-25% Optimized: 30-40%	CRM tracking
Client Acquisition Cost (CAC)	Total marketing cost ÷ Number of new clients	Initial: \$1,600-2,400 Optimized: \$800-1,200	Calculated metric

Metric	Definition	Target	Tracking Method
Return on Ad Spend (ROAS)	Revenue generated ÷ Ad spend	Target: 3-5x	Calculated metric

Secondary Performance Metrics

Metric	Definition	Benchmark	Tracking Method
Click-Through Rate (CTR)	% of impressions that result in clicks	LinkedIn avg: 0.4-0.6% Target: >0.8%	LinkedIn Campaign Manager
Conversion Rate (CVR)	% of clicks that convert to leads	LinkedIn avg: 5-10% Target: >12%	LinkedIn Campaign Manager
Cost Per Click (CPC)	Ad spend ÷ Number of clicks	LinkedIn avg: \$5-7 Target: <\$5	LinkedIn Campaign Manager
Landing Page Conversion Rate	% of visitors who complete application	Industry avg: 3-5% Target: >8%	Google Analytics
Ad Relevance Score	LinkedIn's assessment of ad quality	Target: 7+	LinkedIn Campaign Manager
Engagement Rate (Organic)	(Likes + Comments + Shares) ÷ Impressions	LinkedIn avg: 1-2% Target: >3%	LinkedIn Analytics

Performance Tracking System

Data Collection Framework

Data Source	Metrics Tracked	Collection Frequency	Integration Method
		Daily	

Data Source	Metrics Tracked	Collection Frequency	Integration Method
LinkedIn Campaign Manager	Impressions, Clicks, CTR, CPC, CPL, Leads, Demographics		Manual export to tracking spreadsheet
LinkedIn Analytics	Organic reach, engagement, profile views, follower growth	Weekly	Manual export to tracking spreadsheet
Google Analytics	Landing page traffic, behavior, conversion rate	Weekly	Connect to landing page
CRM/ Spreadsheet	Lead status, discovery calls, conversions	Daily	Manual tracking
Calendly	Call bookings, attendance rate	Daily	Manual tracking

Tracking Spreadsheet Structure

1. Dashboard Tab

- Summary of key metrics
- Week-over-week and month-over-month comparisons
- Visual charts of primary KPIs

5. Ad Performance Tab

- Daily metrics by campaign, ad set, and ad
- Cost data and efficiency metrics
- Performance trends

9. Lead Tracking Tab

- Individual lead information
- Lead source and quality indicators
- Conversion funnel progression

13. Content Performance Tab

- Organic post performance

- 15. Engagement metrics by content type
- 16. Top-performing content analysis
- 17. ROI Analysis Tab
- 18. Client acquisition costs
- 19. Revenue attribution
- 20. Return on investment calculations

Optimization Framework

Weekly Optimization Protocol

Day	Action Items	Decision Criteria
Monday	Review weekend performance Check weekly budget pacing	Adjust daily budgets if pacing too quickly/slowly
Tuesday	Analyze previous week's ad performance Identify top/bottom performers	Pause ads with CTR <0.4% after sufficient impressions Increase budget for ads with CPL 20% below average
Wednesday	Review lead quality from previous week Check discovery call conversion rates	Adjust targeting if lead quality is declining Refine messaging if call booking rate drops
Thursday	Implement creative refreshes Test new ad variations	Replace lowest-performing ad in each set A/B test new headlines or images
Friday	Prepare performance summary Plan next week's adjustments	Document insights and planned changes Set performance goals for coming week

Bi-Weekly Deep Dive Analysis

Focus Areas: 1. **Audience Analysis** - Review demographic data of converters vs. non-converters - Identify patterns in high-quality leads - Refine targeting parameters based on findings

1. **Creative Performance**

2. Analyze performance by message theme
3. Compare headline and body copy variations
4. Identify visual elements that drive engagement

5. **Funnel Analysis**

6. Map conversion rates at each funnel stage
7. Identify drop-off points
8. Develop hypotheses for improvement

9. **Budget Allocation Review**

10. Analyze performance by time of day/week
11. Compare persona-specific campaign performance
12. Redistribute budget based on ROAS

Monthly Strategic Optimization

Process: 1. **Comprehensive Performance Review** - Analyze all KPIs against targets - Compare month-over-month trends - Assess progress toward client acquisition goals

1. **Strategic Adjustments**

2. Evaluate overall targeting strategy
3. Consider new audience segments to test
4. Assess budget allocation across platforms

5. **Creative Refresh**

6. Develop new creative concepts based on data
7. Plan A/B tests for coming month
8. Retire underperforming creative approaches

9. **Conversion Optimization**

10. Review landing page performance

- 11. Analyze discovery call process
- 12. Identify opportunities to improve conversion rates

Testing Framework

A/B Testing Protocol

Element	Testing Approach	Sample Size Requirements	Success Criteria
Headlines	Test 2-3 variations simultaneously	Minimum 1,000 impressions per variation	20%+ improvement in CTR
Body Copy	Test 2 variations simultaneously	Minimum 1,000 impressions per variation	15%+ improvement in CTR
Images/ Creative	Test 2 variations simultaneously	Minimum 1,000 impressions per variation	20%+ improvement in CTR or 15%+ in CVR
Audience Targeting	Test expansion/ narrowing of parameters	Minimum 1 week per variation	15%+ improvement in CPL
Landing Page Elements	Test form length, CTA, layout	Minimum 100 visitors per variation	20%+ improvement in conversion rate

Testing Calendar

Month 1: Baseline Establishment - Week 1-2: Run initial variations to establish baselines - Week 3-4: First round of headline and image tests

Month 2: Systematic Testing - Week 1-2: Body copy testing - Week 3-4: Audience parameter testing

Month 3: Refinement Testing - Week 1-2: Combined creative testing (best elements) - Week 3-4: Landing page optimization testing

Budget Management & Scaling Framework

Budget Allocation Model

Initial Phase (\$25/day = \$750/month) - 70% to primary persona campaign (\$17.50/day) - 15% to secondary persona campaign (\$3.75/day) - 15% to tertiary persona campaign (\$3.75/day)

Optimization Phase (\$35/day = \$1,050/month) - 60% to top-performing persona campaign (\$21/day) - 25% to second-best performing persona campaign (\$8.75/day) - 15% to third-best performing persona campaign (\$5.25/day)

Scaling Phase (\$50/day = \$1,500/month) - 50% to top-performing persona campaign (\$25/day) - 25% to second-best performing persona campaign (\$12.50/day) - 15% to third-best performing persona campaign (\$7.50/day) - 10% to retargeting campaign (\$5/day)

Scaling Decision Framework

Metric	When to Scale	When to Hold	When to Reduce
CPL	<\$75 for 2+ weeks	\$75-125	>\$125 for 2+ weeks
ROAS	>4x for 2+ weeks	2-4x	<2x for 2+ weeks
Lead Quality	>35% lead-to-call rate	20-35% lead-to-call rate	<20% lead-to-call rate
Conversion Trend	Stable or improving	Fluctuating	Declining for 2+ weeks

Budget Scaling Protocol

- 1. Validation Phase**
- Maintain \$25/day until achieving CPL <\$100 consistently
- Require minimum 10 leads before making significant changes
- 4. Incremental Scaling**
- Increase budget by 20% increments (\$5/day)
- Allow 7-10 days between increases to assess impact
- Revert if performance degrades by >15%

8. Channel Expansion

9. Consider Instagram ads only after LinkedIn ROAS >3x
10. Test with 20% of budget initially
11. Require equal or better performance metrics to continue

Performance Analysis & Reporting

Weekly Performance Snapshot

Format: Single-page dashboard **Delivery:** Monday morning **Key Components:** - Previous week's KPIs vs. targets - Cost efficiency metrics - Lead generation and conversion metrics - Notable insights and recommendations

Monthly Performance Report

Format: Comprehensive report with analysis **Delivery:** First day of each month **Key Components:** - Month-over-month performance comparison - Detailed KPI analysis with visualizations - Audience and creative insights - Optimization actions taken and results - Recommendations for coming month - Progress toward client acquisition goals

Quarterly Strategic Review

Format: In-depth analysis and strategy document **Delivery:** End of each quarter **Key Components:** - Comprehensive performance analysis - ROI assessment - Strategy effectiveness evaluation - Major insights and learnings - Recommended strategic adjustments - Updated forecasts and targets

Continuous Improvement System

Feedback Integration Process

1. **Discovery Call Insights**
2. Document objections and questions from calls
3. Identify patterns in prospect concerns
4. Update messaging to address common objections
5. **Client Onboarding Feedback**
6. Collect insights on decision factors from new clients
7. Identify most compelling aspects of offer

8. Refine messaging to emphasize key decision drivers

9. **Lead Quality Assessment**

10. Categorize leads by quality score (A/B/C)

11. Analyze characteristics of A-quality leads

12. Refine targeting to attract more similar prospects

Learning & Optimization Cycle

Weekly Cycle: 1. Collect and analyze performance data 2. Identify underperforming elements 3. Develop hypotheses for improvement 4. Implement targeted changes 5. Document changes and expected outcomes

Monthly Cycle: 1. Review cumulative performance data 2. Assess effectiveness of weekly optimizations 3. Identify persistent challenges or opportunities 4. Develop strategic adjustments 5. Implement and monitor broader changes

Crisis Management Protocol

Performance Issue Response Framework

Issue	Trigger	Immediate Response	Investigation Process
Sudden CPL Increase	CPL increases >30% over 3 days	Pause worst-performing ads Reduce daily budget by 30%	Analyze audience changes Check for seasonal factors Review competitive landscape
Lead Quality Drop	Lead-to-call rate drops below 15%	Review recent leads for patterns Check targeting parameters	Analyze lead characteristics Review ad messaging Assess landing page changes
Ad Approval Issues	Ads rejected or account flagged	Immediately revise flagged content	Document LinkedIn feedback Research policy

Issue	Trigger	Immediate Response	Investigation Process
		Review all active ads for compliance	guidelines Develop compliant alternatives
Conversion Rate Collapse	Call-to-client rate drops below 15%	Review recent call recordings/notes Check for offer communication issues	Analyze objection patterns Review sales process Assess competitive factors

Recovery Planning

For each potential crisis scenario, develop a specific recovery plan that includes: 1. Diagnostic process to identify root causes 2. Immediate mitigation steps to limit damage 3. Alternative approaches to test 4. Timeline for recovery 5. Criteria for returning to normal operations

Conclusion

This performance metrics and optimization plan provides Coach Cooz with a structured framework for measuring, analyzing, and continuously improving his lean marketing strategy. By following this systematic approach to performance management, Coach Cooz can maximize the impact of his limited marketing budget, achieve his client acquisition goals, and build a sustainable marketing system that delivers consistent results.

The plan emphasizes data-driven decision-making, methodical testing, and strategic optimization to ensure that every dollar of the \$25-\$50 daily budget generates maximum return. Regular analysis and reporting will provide clear visibility into performance and guide ongoing improvements to the marketing strategy.
